

1 CLAIM: A new and distinct variety of peach tree,
2 substantially as illustrated and described, characterized by
3 its large size, vigorous, upright growth, and being a regular
4 and productive bearer of medium to large size, early
5 maturing, yellow flesh, clingstone fruit with good flavor and
6 eating quality. The fruit is further characterized by having
7 firm flesh, an attractive orange-red blush covering the rich,
8 yellow skin color with good handling and shipping qualities
9 and in comparison to the variety 'Super Rich' Peach (U.S.
10 Plant Patent #9860), the tree of the new variety requires
11 approximately 350 hours less winter chilling and its fruit
12 matures approximately 7 days earlier.
